

Dear Friends and Ministry Partners,

Community Health Evangelism (CHE) teams are staying active in Cote d'Ivoire. One of their recent coordinated outreaches was to provide training on how to prevent Ebola. Some Free Will Baptist, Christian Missionary Alliance, and Christian Church congregations now participate in spreading the news. Ladies also became involved in the Women's Cycle of Life training to bring better quality of life for women, whose needs are often ignored.

On consecutive Fridays, Verlin spoke with others who bring short-term teams to expand the good work of CHE programs. [Heartbeat for Africa](#) is sending a medical team to equip and participate with Ivorians doing school health screenings. They will also do work in Ghana, and could still use some medical personnel. The director of the [ReSCOF](#) which serves in France, Africa, and Asia, connected with Verlin through Skype so they could catch-up with one another concerning the development of the Ivorian Association of CHE.

While we are thrilled to know of all this work going on, it makes us hungry to get back! Other groups from our area of ministry anticipate our return to expand the trainings being done.

Thank you for the wonderful, encouraging reception in Michigan the past three weeks! Our travels will take us south during April. God willing, we will return to Michigan in May.

Blessed to call you partners and friends,
Verlin and Debbie Anderson

The Christian Health Service Corps (CHSC) is a mission of dedicated medical professional who participate in the CHE Global Network. Together, in a loose affiliation of individuals, churches, denominational and nondenominational agencies, we share God's Light and Truth through Community Health Evangelism (CHE). Unless rescinded, the network includes FWBIM. See <http://wholisticmissions.com/workshops.php> for timely and timeless missional topics to be addressed at the next interagency conference in the U.S. If you attend, you may find that God has ways that you can do similar good works contextualized for the U.S.
