Dear Friends and Ministry Partners,

The Community Health Engagement training at the University went EXCEPTIONALLY well this year. The progress in seeding the nation with knowledge of the Eternal for later harvests of obedient servants is going well. This year at the university training,

- ▶ 13 doctors
- ▶ 5 church leaders
- ▶ 5 medical researchers / sociologists
- ▶ 2 financial service reps
- ▶ 5 pharmacy reps
- ▶ 6 public health dept. (some were included in the doctor's #'s)
- ▶ 5 university participants listing themselves as only students

participated. In Monday's review of the week, the organizing staff recognized once again the overwhelming positive impact the CHE

training series is having. Next year is set for Sep 12 – 16. The plan is to include an adapted hybrid TOT3 of CHEvangelism and CHEngagement. In years to follow when a TOT3 is not needed, training series of Micro Enterprise, Women's Cycle of Life, Disabilities, Workplace Health, or Children's CHE are to be introduced.

We seek to increase the numbers from 70 to over 300 who spread comments like these: *'the training is practical and adapted to all the activities of our life together . . . I want to congratulate you and tell you thank you. May God bless you and instruct all of us yet more for the good of our population'* or *'Persevere because our developing countries have need of this CHE training to achieve an enduring development'*. Church leaders' comments indicate they can use this for pre-evangelization and evangelization to permeate the culture.

If you review this on a computer and want to have an idea of where we believe God is taking all of us together in Cote d'Ivoire, this link takes you to updates from others in Africa: [Uganda](#).

## **Praise and Prayer:**

Two supporters validated trusting the Lord to keep us here by informing us of their pledges. We now need 22 more partners or \$2200 a month to stay here and follow-up. Without the follow-up, much of the excitement and chance to spread quickly across the nation will wane.
