Below is one of Verlin's Facebook / mobile phone reports from time in Ouagadougou this week:

Wednesday I visited a village of Burkina Faso where the pastor introduced people to the Gospel Light that guides the transformation of the entire community. The increasing numbers of Christians in the Muslim village use what they have to start or improve education, water and food security, and crop resale through storage. The church planting effort progressed from being refused a lot of land to meet, to having a prime place given to promote the ministry. The anticipation of blessing is so great that after three years, the initiating team moves to a new region as the team in the village begins training to train other villages in what they have done. I did not get their count on how many have been added to the church though. On Friday I asked the conference host, but he did not know the number. (He took me to another village with more than 70 converts, explaining his church just hosted the event). I just know the chief told them to keep building. They did 20% of the well cost initially; 100% of the teacher's house, grain storage, and church building with their own money, time and mud and healthier bodies because of nutrition and gardening teaching in the first village; 100% of the costs for well, church building with water collection and solar power for lights, music, and pastor's house in the second. They were great looking buildings using appropriate technologies too. I pray this transformational power becomes the dominant expression of Christ here, as well as through our U.S. churches again, one soul at a time.

Prayer and Praise:

- 👉 Pray for our successful follow-up to people who requested CHE training this week, as well follow-through by Africans who made commitments to reach out in over 400 new villages!
- 👉 Gunmen opened fire on the beach of the tourist town of Grand-Bassam in Cote d'Ivoire on Sunday, March 13. At least twelve were killed, including Europeans. Pray that we will be faithful sharing the Good News so that this worldview does not conquer West Africa.
- 👉 Our email distribution service which sends these updates is getting rejections on quite a few email addresses. They have been trying to correct the problem for about two weeks. Ask the Lord to help us get this issue resolved before Debbie leaves for Cote d'Ivoire on April 9.

The [Christian Health Service Corps \(CHSC\)](#) is a mission of dedicated medical professionals who participate in the [CHE Global Network](#). Together, in a loose affiliation of individuals, churches, denominational and nondenominational agencies, we share [God's Light and Truth](#) through [Community Health Evangelism \(CHE\)](#). Verlin and Debbie seek 6 additional donor partners at \$100 per month as we resume residential ministry to expand and mature CHE ministries in Cote d'Ivoire under the auspices of the CHSC and Ivorian partners.
